

Northeast Conference on the Science of PFAS: Public Health & the Environment
April 5 and 6, 2022

Best Western Royal Plaza Hotel and Trade Center in Marlborough, MA

Exhibitors & Location Map

Exhibit Table	Company	Services	More Information
1	ECT2 www.ect2.com	ECT2 Believes the World Needs Better Ways to Treat PFAS. ECT2's Patented SORBIX RePURE technology is the most sustainable treatment technology capable of achieving Non-Detect results for PFAS - including short chain compounds. ECT2 has treated over 2 billion gallons of PFAS impacted water world-wide.	Patrick McKeown (207) 318-7817 pmckeown@ect2.com
2	CDM Smith www.cdmsmith.com	CDM Smith is a privately owned engineering and construction firm providing legendary client service and smart solutions in water, environment, transportation, energy and facilities. Passionate about our work and invested in each other, we are inspired to think and driven to solve the world's environmental and infrastructure PFAS challenges.	Andrew Miller (617) 452-6532 miller@cdmsmith.com
3	REGENESIS www.regenesis.com	REGENESIS is an expert provider of cost-effective in-situ soil and groundwater remediation products, vapor barrier systems and services. Offering turn-key solutions for remediating and polishing off a wide range of sites at lowest total cost-to-closure. REGENESIS leads the industry with proven solutions to eliminate PFAS compounds and other emerging contaminants.	Alana Miller (646) 838-2926 amiller@regenesisc.com
4	EA Engineering, Science, and Technology, Inc., PBC https://eaest.com	As a leading provider of interdisciplinary environmental services, EA has over 12 years of PFAS project experience and remains committed to advancing the science and utilizing the latest technology. A 100% employee-owned public benefit corporation, EA employs more than 575 professionals through a network of nationwide offices.	Erica Thieleman 315-565-6562 ethieleman@eaest.com
5	Fluid Management Systems www.fms-inc.com	Fluid Management Systems, Inc. designs, manufactures, and supports analytical instruments used by scientists to perform extraction, cleanup, fractionation and concentration of samples prior to chemical analysis.	Tom Hall (617) 393-2396 thall@fms-inc.com

6	Aclarity www.aclaritywater.com	Aclarity commercializes novel electrochemical water treatment systems for the complete destruction of contaminants in water. Bench and pilot systems available for PFAS, Cyanide, VOCs, Ammonia, Pharmaceuticals, etc.	Elisabeth Christ (508) 762-8572 elisabeth.christ@aclaritywater.com
7	Atlas Technical Consultants (Atlas/ATC) www.oneatlas.com	Atlas Technical Consultants (Atlas), as successor in interest to ATC Group Services, is an environmental solutions and infrastructure consulting and engineering company with 140 offices nationally including 7 in New England. We have significant experience assessing and managing PFAS in drinking water supplies, soil, groundwater, and surface water.	Michael Gitten, LSP, PE (781) 404-1439 michael.gitten@oneatlas.com
8	TRS Group, Inc. www.thermalrs.com	TRS Group, a 100% employee-owned company with joint ventures and partnerships in Brazil, China and Europe, is a global provider of PFAS and thermal remediation technologies for the in situ treatment of soils, groundwater and bedrock, the ex situ treatment of soil piles and dredged sediment and AFFF fire suppression systems.	Lauren Soos (978) 514-3133 lsoos@thermalrs.com
9	MACHEREY-NAGEL www.mn-net.com/us	MACHEREY-NAGEL is a specialty manufacturer of laboratory filter paper and a leader in chromatography as well as water analysis and nucleic acid purification. High quality solutions for HPLC, GC, TLC and sample preparation are provided in more than 150 countries.	Alycia Wolfe (484) 821-0984 awolfe@mn-net.com
10	Complete Environmental Testing www.cetlabs.com	Complete Environmental Testing is a full-service, NELAC accredited environmental laboratory certified in CT, MA, RI, NY and PA. CET prides itself in giving customers exactly what they need: quality service, dependable data, value and stability. With twenty-nine years of experience, CET and will be there for the long-term	Jeffrey Smith (203) 377-9984 jsmith@cetlabs.com
11	Evoqua Water Technologies www.evoqua.com	Evoqua Water Technologies is a leading provider of water and wastewater treatment solutions, offering a broad portfolio of products, services and expertise to support industrial, municipal and recreational customers.	Geoffrey Pellechia (207) 272-7118 geoffrey.pellechia@evoqua.com
12	SGS www.sgs.com	SGS is the world's leading testing, inspection, verification and certification company. With more than 96,000 employees, we operate a network of over 2,600 offices and laboratories around the world. Our value to society is enabling a better, safer and more interconnected world.	Leighanne Neilson (905) 730-1865 leighanne.neilson@sgs.com

13	Weston & Sampson Engineers, Inc. www.westonandsampson.com	Weston & Sampson provides interdisciplinary design, engineering, and environmental services with commitment to improving the natural and built communities where you live, work, and play. Our “one-stop shop” services encompass a wide range of disciplines—including services to assist our clients in managing projects, programs, and facilities.	Steve LaRosa (802) 505-8909 larosas@wseinc.com
14	AECOM www.aecom.com/pfas	AECOM collaborates globally to solve clients’ most complex remediation challenges, including identifying and resolving PFAS. We’ve set bold aspirations for net-zero carbon emissions and advancing other ESG initiatives. AECOM ranked #1 in Environmental Engineering/Design by ENR, and has 47,000 employees and revenue of \$13.3 billion in FY2021.	Rosa Gwinn (978) 905-2100 askenvironment@aecom.com
15	Clean Earth www.cleanearthinc.com	Clean Earth offers a comprehensive array of specialty waste treatment, disposal, and recycling solutions. Uniquely positioned, with locations across the United States, we hold a portfolio of extensive environmental permits to be your one-source, full-service solution for safely managing the recycling and disposal of all your hazardous and non-hazardous waste.	Avery Drane (317) 508-5738 adrane@harsco.com
16	Allonnia LLC www.allonnia.com	At Allonnia, we’re pioneering novel approaches and imaginative combinations in biotechnology and engineering to solve waste challenges in nature, using nature.	Mack Astorga (404) 353-3001 mastorga@allonnia.com
17	CETCO - Minerals Technologies, Inc. www.mineralstech.com	CETCO is a global leader in transforming ordinary minerals into extraordinary technology. A subsidiary of Minerals Technologies Inc., CETCO provides products and services for waste treatment, lining systems, waterproofing, and subsurface drilling. For PFAS clean up, CETCO offers FLUORO-SORB® Adsorbent, a proprietary product designed to remove and stabilize PFAS.	Matt Geary (518) 430-8790 matt.geary@mineralstech.com
18	Clear Creek Systems, Inc https://clearcreeksystems.com	Clear Creek Systems is a water treatment technology supplier providing custom solutions to water treatment issues. We work collaboratively to supply the best solution to your specific water treatment needs.	Phil Farina (419) 346-8848 pfarina@clearcreeksystems.com
19	Barr Engineering Co. www.barr.com	Barr provides engineering and environmental consulting services to clients across North America and around the world. Our engineers, scientists, and technical specialists work together to help clients develop, manage, process, and restore natural resources.	Tim Russell (952) 832-2600 trussell@barr.com

20	GZA GeoEnvironmental Inc. www.gza.com	GZA provides environmental, geotechnical, and water services to a variety of private and public sector clients. We have completed hundreds of PFAS projects employing a stringent, science-based, risk management approach to investigating and remediation PFAS sites. We believe that involving stakeholders early on is critical in resolving these issues.	Richard J. Desrosiers (860) 965-1117 richard.desrosiers@gza.com
21	Waters Corporation www.waters.com	Waters Corporation is the world's leading specialty measurement company focused on improving human health and well-being through the application of analytical technologies and industry leading scientific expertise. Waters is a pioneer in PFAS analysis, offering a portfolio of separations and analytical science, laboratory informatics, and mass spectrometry solutions.	Jenifer Lewis (508) 244-8478 jenifer_lewis@waters.com
22	Wood www.woodplc.com	Wood is a full spectrum environmental and engineering consulting firm specializing in multi-sector projects. We provide innovative solutions and delivery excellence needed to solve today's most complex challenges and maximize value across the project life cycle.	Christopher Buckman (331) 222-2271 christopher.buckman@woodplc.com
23	Pace Analytical www.pacelabs.com	Pace® Analytical supports a wide variety of analytical services projects - regardless of scope, complexity, or logistics. We operate one of the most diversified commercial analytical laboratory networks in the nation, with over 100 laboratories and service centers and a vision of protecting our environment and improving our health.	James Geogantas (413) 525-2332 James.Geogantas@pacelabs.com
24	Purolite, An Ecolab Company www.purolite.com	Purolite is a leading manufacturer and innovation leader of quality ion exchange, catalyst, adsorbent and specialty high-performance resins. Purolite offers solutions for the removal of short- and long- chain PFAS.	Joe Klimek (908) 328-7426 Joe.Klimek@purolite.com
25	U.S. Environmental Rental Corp www.usenvironmental.com	A family-owned and operated, small business providing rentals, distribution, and repairs of environmental monitoring equipment, accessories, and related items. U.S. Environmental is dedicated to providing our valued clients with the newest, most technologically-advanced, rugged, reliable, and accurate instrumentation. Our people are committed to providing a superior experience throughout all areas of our operation including customer service, rentals, sales, repairs, technical support, training, and accounting.	John Spadea (781) 899-1560 jspadea@usenvironmental.com
26	Aqueous Vets www.aqueousvets.com	AqueoUS Vets® is a leading, vertically integrated manufacturer of treatment systems used to address emerging contaminants in groundwater such as PFAS, 1,2,3-TCP, TOC, volatile organic compounds (VOCs), fuels, chrome 6, and arsenic, among others. AV's "Concept to Commission" approach provides the lowest cost of ownership to the end user.	Andy Sterling (760) 330-3012 asterling@ugsicorp.com

27	Alpha Analytical, Inc. www.alphalab.com	Alpha Analytical is the 6th largest environmental testing lab in the U.S. Alpha has 50,000sf of state-of-the-art facilities and a reputation for quality and reliability for over 35 years. Our 500 employees have a commitment to data integrity and the highest ethical standards.	Ethan Leighton (978) 618-3145 eleighton@alphalab.com
28	Bureau Veritas www.bvna.com	Bureau Veritas provides industry leading PFAS analysis to North America . In addition to EPA Draft Method 1633 offering (coming soon - May 2022), we offer EPA 537.1, EPA 537m, and EPA 533, in a diverse range of environmental matrices, as well as the total oxidizable precursors (TOPs) assay, the total organofluorine analysis by combustion ion chromatography (TOF-CIC).	Stephanie Pollen (416) 432-3443 stephanie.pollen@bureauveritas.com
29	Eurofins Environment Testing America - Lancaster www.EurofinsUS.com/Env	Eurofins Environment Testing has North America's largest capacity dedicated to PFAS analysis and more than 20 years experience providing high-quality, cost-effective analytical solutions and quick TAT. We report over 80 PFAS related compounds at detection limits well below state and federal screening levels in a wide range of matrices.	Jane Huber (717) 209.1438 Jane.Huber@EurofinsET.com
30	Absolute Resource Associates www.absoluteresourceassociates.com	Absolute Resource Associates (ARA) provides certified environmental services to customers throughout New England, including investigations, professional assessments, sampling, environmental laboratory services, indoor air quality services, and complete environmental project management related to contamination or suspected contamination of water, soil, and indoor air. www.PFASresource.com	Susan Sylvester (603) 436-2001 sues@absoluteresourceassociates.com
31	Stone Environmental, Inc. www.stone-env.com	Stone Environmental is a 100% employee-owned environmental science, engineering, and field services firm located in Montpelier, Vermont. Our capabilities include environmental assessment and remediation, water resources management, hydrological and environmental modeling (including contaminant fate and exposure), natural resources engineering and design, and geospatial analysis, data visualization, and application development.	Daniel Voisin (802) 229-1875 dvoisin@stone-env.com
32	LaBella Associates www.labellapc.com	LaBella is an international A/E firm with four key service offerings: buildings, energy, infrastructure and environmental. Our environmental services include: due diligence, investigation & remediation, remedial system design/build, urban redevelopment, regulated building materials, climate resiliency, wetlands and permitting, endangered species monitoring, natural gas support, erosion and agricultural monitoring.	Daniel Noll, PE (585) 301-8458 DNoll@LaBellaPC.com
